## INSTRUCTIONAL SPACE UTILIZATION ANALYSIS FALL 2008 SEMESTER

### EXECUTIVE SUMMARY

#### BACKGROUND

This report analyzes instructional space utilization at the University of Arizona for the Fall 2008 semester. Instructional space for this analysis includes class laboratories, classrooms, collaborative/seminar rooms, computer instructional rooms, and lecture halls and was undertaken to determine the utilization of instructional space for the Fall 2008 semester using enrollment data from the University of Arizona Student Information System's (SIS) 21<sup>st</sup> day of class audited report for that semester. The methodology applied is based on the Council of Educational Facility Planners, Inc. (CEFPI) *Space Planning Guidelines*, which were adopted by the Arizona Board of Regents in 1992, and updated and revised in 1997, thereby providing consistent space management guidelines for the three state universities.

The results of the analyses are used as an internal management tool for assessing current utilization of instructional space and maximizing the use of existing facilities. Any questions can be directed to Real Estate Administration at 621-1813.

#### HIGHLIGHTS

Instructional space utilization for the Fall 2008 semester showed:

- Student credit hours converted to weekly student contact hours (WSCH) are the basis for this analysis.
  - A. Of the 471,334 student credit hours (SCH) generated in the Fall 2008 semester, 372,586 SCH (79%) were reviewed in this analysis which equates to 397,035 weekly student contact hours (WSCH).
  - B. 21% of all classes took place in non-instructional space (98,748 SCH). These classes were not included in this analyses due to their use of non-instructional space, i.e., off-campus, independent study, etc.
- 3,905 courses were held each week in 437 rooms, in 58 different university buildings utilizing 467,001 Net Assignable Square Feet (NASF).

## HIGHLIGHTS (cont.)

- Overall class size averaged 38 students per class.
- Slightly over six percent of the courses taught during the Fall 2008 semester contained 100 or more students (256 of the 3,905 total courses).
- 68% of all classes had class sizes of 29 or fewer students.
- Enrollment data indicates the University reaches its peak student population between 10:00 and 10:59 AM on Tuesdays and Thursdays with 12,851 students enrolled in that time period.
- Data indicates a substantially lower utilization of departmentally controlled rooms versus centrally scheduled rooms, especially computer classrooms and lecture halls.

This report classifies the 437 instructional rooms into five room type categories:

	# of rooms
Classrooms	193
Collaborative/seminar rooms	54
Computer instructional classrooms	19
Lecture halls	42
Class laboratories	129
<b>TOTAL INSTRUCTIONAL ROOMS</b>	<b>437</b>

Definitions for these room types can be found in the Glossary Section.

The following chart illustrates two key factors in room utilization, both of which are influenced by the manner in which the rooms are scheduled:

- 1) average hours of instruction per week;
- 2) percentage of student stations occupied

The Room and Course Scheduling Department controls scheduling for the majority (approx. 90%) of the University's classrooms and lecture halls, but departments schedule virtually all of the class laboratories and seminar rooms. Room classifications in the non-instructional category include conference rooms, meeting rooms, offices, reading rooms, research labs, and are addressed in Appendix A.

### Instructional Room Type Comparisons

INSTRUCTIONAL ROOM TYPE	Average Hours of Instruction Per Week					Percentage of Student Stations Occupied				
	2006	2007	2008	ABOR Standard	Above (+) Below (-)	2006	2007	2008	ABOR Standard	Above (+) Below (-)
Classrooms	30	29	30	35	-	61%	64%	64%	65%	-
Collaborative/Seminar	20	22	20	35	-	75%	78%	76%	67%	+
Computer Instructional	15	14	12	32	-	84%	88%	80%	75%	+
Lecture Halls	27	25	26	32	-	74%	79%	80%	63%	+
Class Labs – A	18	16	13	25	-	84%	72%	68%	85%	-
Class Labs – B	20	20	19	22.5	-	71%	83%	85%	85%	=
Class Labs – C	20	17	18	12.5	+	43%	50%	60%	85%	-

### Buildings Generating the Most WSCH

Ten of the 58 buildings with instructional space generated 64% of the Weekly Student Contact Hours (WSCH). These buildings are:

<b>Building</b>	<b>WSCH</b>	<b>NASF</b>
Harvill	38,886	32,391
Modern Languages	36,067	23,026
Pacheco Integrated Learning Center	32,089	30,085
Koffler Building	27,061	46,075
Social Sciences	25,639	13,389
Chavez Building	22,020	13,992
McClelland Hall	21,739	16,589
Education	19,930	23,463
Physics-Atmospheric Sciences	18,068	16,364
Center for English as a Second Language	12,333	5,000

**SEATING CAPACITY BY INSTRUCTIONAL ROOM TYPE**

INSTRUCTIONAL ROOM TYPE	SEATING CAPACITY										TOTAL
	<20	20-29	30-39	40-49	50-59	60-69	70-79	80-89	90-99	100+	
Classrooms	1	36	35	55	29	15	9	6	0	7	193
Collaborative/Seminar	13	31	10	0	0	0	0	0	0	0	54
Lecture Halls	0	0	0	0	0	2	2	3	6	29	42
<b>Subtotal</b>	<b>14</b>	<b>67</b>	<b>45</b>	<b>55</b>	<b>29</b>	<b>17</b>	<b>11</b>	<b>9</b>	<b>6</b>	<b>36</b>	<b>289</b>
Computer Instructional	5	9	5	0	0	0	0	0	0	0	19
Class Laboratories	19	71	21	6	7	1	1	0	0	3	129
<b>TOTAL</b>	<b>38</b>	<b>147</b>	<b>71</b>	<b>61</b>	<b>36</b>	<b>18</b>	<b>12</b>	<b>9</b>	<b>6</b>	<b>39</b>	<b>437</b>

- The number of student stations (also referred to as “capacity”) in each room ranged from 1 to 541.

## **INSTRUCTIONAL SPACE UTILIZATION ANALYSIS FALL 2008 SEMESTER**

### **INTRODUCTION**

This classroom analysis was undertaken to determine instructional space utilization for the Fall 2008 semester using enrollment data from the University of Arizona Student Information System's (SIS) 21<sup>st</sup> day of class audited report. The results of the analysis are used as an internal management tool for assessment of current utilization of instructional space and maximizing the use of existing facilities.

### **METHODOLOGY**

The Council of Educational Facility Planners, Inc. (CEFPI) *Space Planning Guidelines* methodology was applied. Revised CEFPI guidelines were adopted by the Arizona Board of Regents (ABOR) Space Management Committee in fiscal year 1997-98.

The three major factors examined in these analyses were:

- 1) the average hours of instruction per week in each room,
- 2) the average number of student stations occupied during those classes, and
- 3) the net assignable square feet (NASF) per student station.

### **CLASSROOMS**

The first factor focuses on average scheduled hours of instruction held per week in classrooms. According to ABOR guidelines, any classroom that is not being scheduled for 35 hours per week is considered underutilized. Utilization of centrally scheduled classrooms is substantially higher than that of departmentally scheduled rooms. The 168 centrally scheduled classrooms averaged 31 hours of instruction per week compared to the 25 departmentally controlled classrooms which were scheduled for an average of 21 hours per week.

The second factor analyzes whether or not the size of the class enrollment is appropriate to the capacity of a particular room. ABOR guidelines recommend an average station occupancy rate of 65% as a minimum utilization standard. Centrally scheduled classrooms met ABOR guidelines by averaging 65% occupancy vs. 62% for departmentally scheduled classrooms.

### **CLASSROOMS (cont.)**

The third factor analyzes the net assignable square feet (NASF) per student station, which reflects the amount of square footage utilized for each student station. It is calculated by dividing the room size by the seating capacity. For this report, ABOR standard of 19 NASF per student station is applied for classrooms. Centrally scheduled classrooms averaged 17 NASF per student station, while departmentally scheduled classrooms averaged 22 NASF. Overall, the report reflects a very efficient NASF per student station ratio. This may be due to the fact that the University of Arizona historically programmed its buildings for 15 NASF per student station, while current Arizona Board of Regents/CEFPI recommendation is 19 NASF. The square footage increase is due to additional space allowances for audiovisual technology and improved ADA accommodations.

### **COLLABORATIVE/SEMINAR ROOMS**

Collaborative/seminar rooms are distinguished by the presence of tables and chairs and a typical room capacity of fewer than 30 stations. ABOR guidelines call for 35 hours of scheduled classes each week, with at least 67% of the available seats filled. Departments utilized their seminar rooms, on average, for 13 hours each week at 72% occupancy, while centrally scheduled rooms averaged 25 hours and 74% occupancy. The standard NASF per student station under ABOR guidelines is 22 square feet. Centrally scheduled collaborative rooms averaged 19 NASF per student station, while departmentally scheduled rooms averaged 27 NASF per station.

### **COMPUTER INSTRUCTIONAL CLASSROOMS**

Computer instructional classrooms are distinguished from other types of classrooms by the presence of computers at each student workstation. ABOR guidelines call for an average of 32 weekly class hours and an occupancy level of 75%. All computer instructional classrooms were departmentally scheduled. Departments utilized their rooms, on average, for 12 hours each week at 80% occupancy. Indications show that while computer instructional classrooms were seldom used, they were close to fully occupied when in use. The standard NASF per student station under ABOR guidelines is 32 square feet. The departmentally scheduled rooms averaged 37 NASF per student station.

### **LECTURE HALLS**

Lecture halls are distinguished by their "auditorium" type, fixed seating arrangements, and their larger seating capacities. The 35 lecture halls controlled by Room and Course Scheduling were in use an average of 29 hours per week, with an average occupancy rate of 79%. The seven departmentally scheduled lecture halls which were used an average of 11 hours per week at an occupancy rate of 44%. ABOR guidelines call for an average of 32 weekly class hours and an occupancy level of 63%. The standard student station size for lecture halls under the guidelines is 17 square feet. Both centrally scheduled and departmentally scheduled lecture halls averaged 14 NASF per student station.

## **CLASS LABORATORIES**

The materials and specialized teaching equipment and times necessary to support class labs varies from discipline to discipline, which requires individual departments to schedule use of these rooms. Class labs are divided into three subcategories: lab types A, B, and C. The ABOR guidelines for Type A labs (such as business and social sciences) are 25 weekly class hours at an occupancy of 85%. For Type B labs (physical and biological sciences) the ABOR guidelines are 22.5 weekly class hours at 85% occupancy. Type C labs (such as engineering, agriculture and health sciences) characteristically have the greatest space needs due to the specialized equipment and the considerable amount of independent laboratory work required by the disciplines. ABOR standards call for type C labs to be used 12.5 hours per week at 85% occupancy.

Type A class labs did not meet class hour standards in 2008. There was an average of 13 weekly class hours, while average station occupancy was 68%. Type B labs averaged 19 hours per week of utilization and occupancy level of 85%. Type C labs surpassed the weekly class hour standard, with 18 hours of utilization a week, but average occupancy was low at 60%.

## **NON-INSTRUCTIONAL ROOMS**

There were 122 locations not covered by CEFPI guidelines which were used for instruction during Fall 2008. These rooms generated 16,713 WSCH. Among the rooms included in this category are: conference rooms, research labs and their associated service rooms. See Appendix A. for additional data.

<sup>1</sup> Classes are counted based upon their start times and the days on which they occur. Therefore, the number of classes in this table should not be compared with the number of courses offered during the 2008 Fall Semester. Each course is counted as one class in each day and time slot in which it occurs. Therefore, a course that meets Mondays and Wednesdays from 9:00 AM to 11:00 AM would be counted in the table twice.

**University of Arizona  
Instructional Space Utilization Analysis  
2008 Fall Semester**

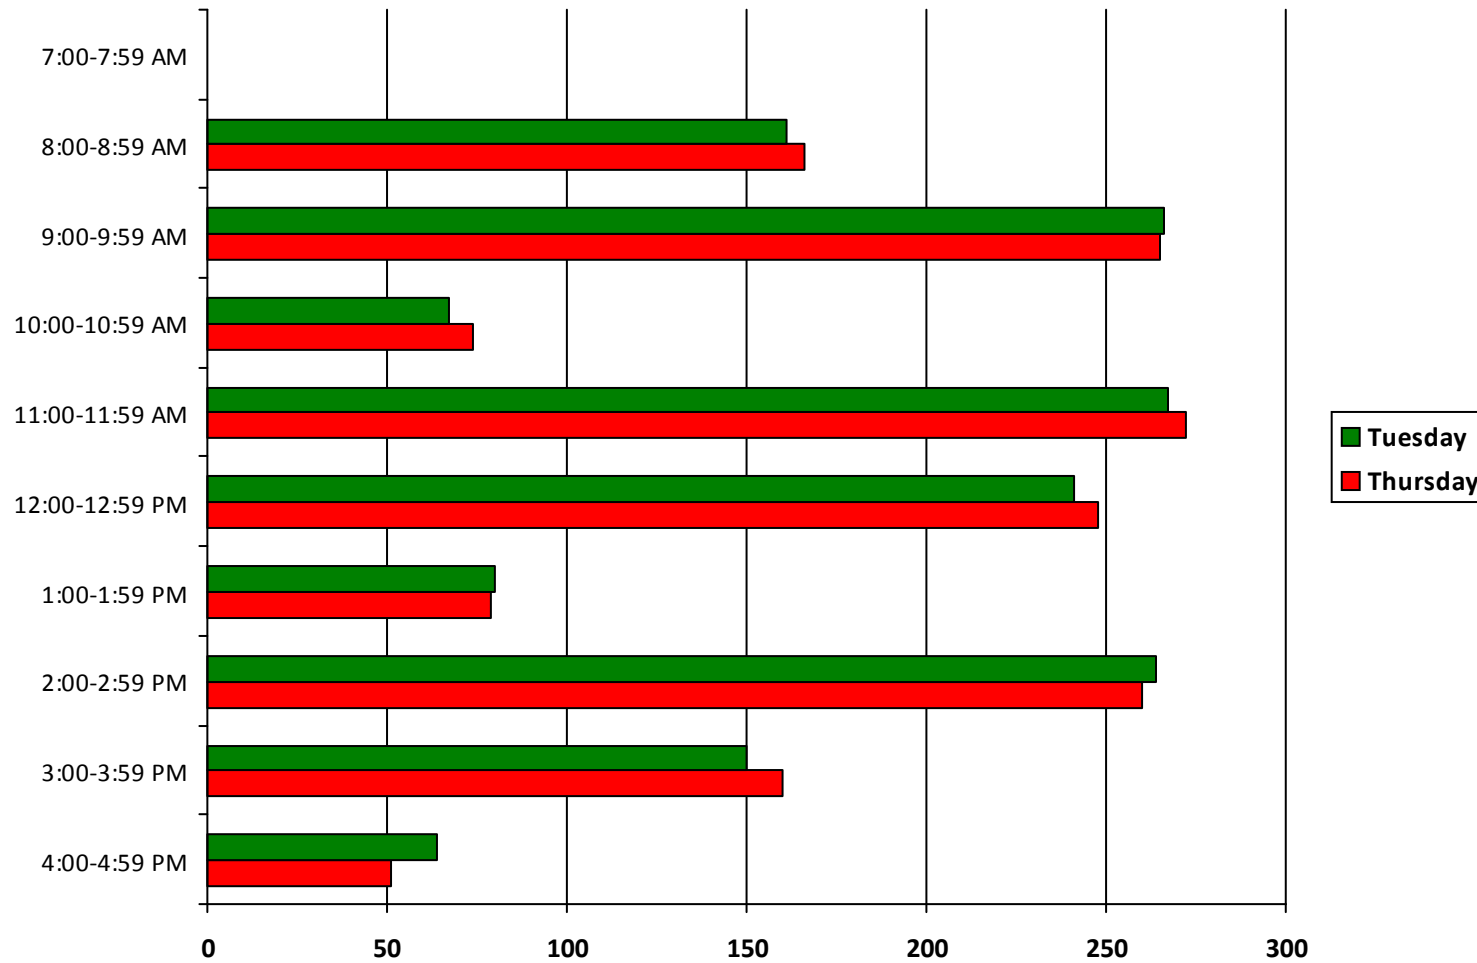

**Number of Classes by Time and Day<sup>1</sup> - Monday, Wednesday and Friday**

<sup>1</sup> Based on start times and the days on which classes occur. See preceding table for more complete explanation.

**University of Arizona  
Instructional Space Utilization Analysis  
2008 Fall Semester**

**Number of Classes by Time and Day<sup>1</sup> - Tuesday and Thursday<sup>2</sup>**

<sup>1</sup> Based on start times and the days on which classes occur. See preceding table.  
<sup>2</sup> Tues/Thurs classes are generally 75 minutes, leaving the room unavailable for the next hour.

<b>4:30-4:59 PM</b>	6,550	8,506	6,425	7,862	744	30,087

<sup>1</sup> Data represents the number of students during a particular day and time slot. Each student is counted once for each day and hour during which he or she is in a class. Therefore, a student who attends a class that meets on Mondays and Wednesdays from 9:30 AM to 11:00 AM would be represented in the table six times -- Monday during 9:30-10:00 AM, 10:00-10:30 AM, and 10:30-11:00 AM as well as Wednesday during the same time slots.

<sup>1</sup> Type A class laboratories have the lowest requirement for student station size, such as business and social sciences.

<sup>2</sup> Type B class laboratories have intermediate student station size needs, and include the physical and biological sciences.

<sup>3</sup> Type C class laboratories have the highest need for student station size to accommodate specialized equipment, such as engineering and agriculture

## **GLOSSARY FOR INSTRUCTIONAL SPACE UTILIZATION ANALYSIS**

### **CLASSROOMS:**

Instructional rooms that may have traditional tablet arm chair configuration or narrow table and chair configuration, to provide added student work surface. Room capacities typically range from 30 to 100 stations.

### **COLLABORATIVE/SEMINAR ROOMS:**

Classrooms with movable tables and chairs which provide the instructor flexibility to arrange a class in small discussion teams or to meet with the class as a whole. This category also includes seminar rooms, which typically have conference style seating. Room capacities are typically fewer than 30 stations.

### **COMPUTER INSTRUCTIONAL CLASSROOMS:**

Classrooms or class labs equipped with computer terminals at each student station, providing students the ability to individually access class materials stored on computer files. The rooms are typically equipped with desktop computers which support the technology requirements for courses in a broad range of academic disciplines.

### **LECTURE HALLS:**

Classrooms for large classes with either fixed tables and/or chairs or traditional theater type seating. Room capacities typically exceed 100 stations.

### **NASF/STUDENT STATION:**

The number of square feet used to accommodate one student in the particular room type and/or discipline being evaluated. Net assignable square feet (NASF) per student station is calculated by dividing the total room square footage by the number of student stations (capacity) in that room.

### **NASF/STUDENT STATION STANDARD:**

The number of square feet per individual student recommended by Council of Educational Facility Planners, International (CEFPI) for instructional purposes. Class lab standard sizes are determined by discipline.

### **PERCENT STATIONS OCCUPIED WHEN SCHEDULED:**

The percentage of student stations occupied during scheduled classes. The number of occupied student stations is divided by the number of available student stations (capacity).

### **STUDENT STATIONS:**

The number of chairs or seats available in the room. Also referred to as "capacity."

**TOTAL WEEKLY STUDENT STATION DEMAND:**

The number of students enrolled in a class, multiplied by the number of class sections per week.

**WEEKLY CLASS HOURS:**

The number of hours a room is used for scheduled classes each week. This figure does not include any tutoring, conferences, meetings or other activities which may occur in a room.

**WEEKLY STUDENT CONTACT HOURS (WSCH):**

A unit of measure which represents one hour of instruction given to one student in one week.

The data source for this analysis is the Fall Semester 2008 registration data from the University of Arizona Student Information System (SIS).

Standards used within this document are from *Space Planning Guidelines*, Council of Educational Facility Planners, International, July 1985, as revised and adopted by the Arizona Board of Regents' Space Management Committee.
